 Sabert®  
makes food look great

## Market trends

- Positive trend for individual portions and desserts
- The environmental impact of foodservice packaging remains a source of concern; recycled packagings are an answer.
- Need to get best use of shelf space

## Added Value

- Sabert packagings makes your food offer look great
- RPET solution : 50% post-consumer recycled PET
- Individual portions
- Original and ergonomic shape and design
- Easy labelling possibilities
- Stackability
- Excellent lid fit
- Can be sealed (leakproof)
- Ideal for small salads or desserts

## Easy labelling

## Recycling

### rPET, several ways to use the same material

A by-product of fossil fuel, **PET-Polyethylene terephthalate** is often used in several types of food packaging. We have now entered an era of intelligent recycling and the "re-processed" version is now known as rPET. At Sabert, we prefer to use this type of material and we guarantee that our products include at least 50% "post-consumer" recycled PET.

## Sealable Mini Square bowls and lids

	CODE	CAPACITY (ML)	DIM (CM)	PACK/CASE	LIDS
	BOW11006RPET	175	9x9x4	12x50p.	
	BOW11008RPET	250	9x9x6	12x50p.	
<b>New</b> 	BOW11012RPET	375	12x12x7	12x50p.	
					DOM51008RPET Pack/case: 6x50p.
					DOM51012RPET Pack/case: 6x50p.
