go natural

BEPULP READY MEAL TRAYS

Combine sustainability and convenience for your operation

Compostable

Rollover edges for precise sealing and easy peeling

Perfect denesting features suitable for both manual and industrial processes

Made from natural, plant based and renewable resource

Designed to suit all popular sealing machines based on the same external footprint used widely in the ready meal market

BEPULP READY MEAL TRAYS

» keep your meals fresh and appetising throughout their shelf life

BePulp Ready Meal Trays: from nature back to nature

- BePulp Ready Meal Trays are made from pulp that comes from fibres of plant origin, which are natural, abundant and annually renewable and were intended for waste (e.g. sugar cane bagasse)
- OK compostable* : disintegrates up to minimum 90% in 120 days at temperature of 65°C.

The perfect technical features to meet your process requirements

- **A-B De-nesting features**
Specifically designed for easy De-nesting. Perfect for both manual and industrial manufacturing.
- **Perfect sealing features**
Large and flat rolover edges design which enables precise sealing and easy peeling for the film seal.

» enhance all types of food

- Suitable for both COLD and HOT applications
- Extended shelf-life to 6 days* instead of 2 days for non laminated pulp
- Strong resistance for heavy or moist preparations
 - Microwaveable : max 3 min 800W
 - Ovenable : max. 30 min up to 150°C
 - Suitable for Hot Food counter service
- Available in 1 or 2 compartments for all types of food, from main courses to complete meal with side dishes
- Full leakproof performance thanks to combination of both lamination inside the tray and sealing on the top

* Up to 10 days depending on food content, to be tested by customer in conditions of use
